

Section 7.27—Sheds and other Storage Buildings Upon receiving prior approval from the Design Review Committee pursuant to the procedures outlined in Section 8.2 herein, Owners shall be permitted to install storage buildings or sheds, provided that any such construction conforms with all local building and zoning ordinances, rules and regulations, is made of wood, and is painted or sided to match the Living Unit. No plastic or metal sheds are allowed and shed color must match house as close as possible. Such storage buildings or sheds shall only be permitted in the rear of the requesting Owner's Sublot.
