

#### Section 7.27 – Sheds and Other Storage Buildings

Upon receiving prior approval from the Design Review Committee pursuant to the procedures outlined in Section 8.2 herein, Owners shall be permitted to install storage buildings or sheds, provided that any such construction conforms with all local building and zoning ordinances, rules and regulations, is made of wood, is sided and painted to match the Living Unit, and does not exceed a maximum size of fourteen feet by ten feet (14' x 10'). No plastic or metal sheds are allowed, and shed color and siding must match the house as closely as possible. Such storage buildings or sheds shall only be permitted in the rear of the requesting Owner's Sublot.
